W. A. Johnson's wheat field caught fire last Saturday night from a passing locomotive and it was only the effective work of the Buckner and Lake City section crews, together with the farmers west of town that the crop was saved. About 30 shocks were burned.—Jackson Examiner.

Numerous fires have occurred along railroad lines during the dry weather, doing more or less damage. Just west of town sparks set fire to the wheat field of Chas. Meinershagen, burning considerable grain, and west of Mayview, a number of shocks of wheat were burned. In several places pastures have been burned.—Higginsville Advance.

On Tuesday Judge Gates appointed S. W. Hudson, R. G. Wilson, Jr. and John Muse commissioners to assess damages caused by the location of the right-of-way of the Missouri Pacific spur to be built from Lake City across Fort Osage township to the Santa Fe tracks. ### "Looting" the School Funds.

State Auditor Allen on yesterday notified State Superintendent Carrington that \$1,086,020.81 would be available for the support of the public schools during the present school year. This amount will be apportioned to the several counties and the City of St. Louis in proportion to the number of children of school age.

In 1900 the total amount apportioned was \$990,430.56, or a per capita of one dollar and three mills for each child of school age.

The total distribution, therefore, this year exceeds that of last year by \$95,590.25, and the per capita distribution will be correspondingly increased.

This apportionment of school moneys for the education of our children is made pursuant to the requirements of the constitution, which directs that not less than one-fourth of the ordinary state revenues shall be set apart annually for the support of the public schools. Under democratic control this apportionment is increased to one-third. This amount, together with the annual interest on the state school certificates, constitutes the magnificent fund which has just been apportioned by State Auditor Allen.

The growth of our school fund under democratic management is shown by the following official exhibit:

In 1871 the state distributed for school purposes \$339,567.58; in 1881, \$519,001.16; in 1891, \$876,780.68, and in 1901, \$1,086,020.81.

The distribution of school moneys for educational purposes during this year is the largest in the history of the state. It is hoped that the Globe-Democrat will take note of this "looting" of the school moneys by the democratic administration. The "looting" is of larger proportions than any prior ravishment of the state treasury. The democratic party is pledged to a continuance of this "looting."—Jefferson City Daily Press, July 7.

### Missouri is Rich in Mines.

St. Louis Globe-Democrat. The lead fields are a source of great wealth to Missouri, and they are proving very attractive at this time to outside investors. Of course, a large part of the capital which has developed the lead and zinc mines of Missouri all along has been from outside the state, but the proportion of foreign cash which is being attracted to this locality now is greater than it has been at almost any time in the past quarter of a century. In its lead, zinc and coal fields Missouri has almost inexhaustible sources of riches.

### Money For State Schools.

Washington, D. C., July 8.—The treasury department drew warrants aggregating \$1,200,000 or \$25,000 each for forty-five states and two territories, being the maximum amount provided for by congress in the act of August 30, 1890, for the endowment and maintenance of colleges for the benefit of agriculture and mechanical arts.

This act provided a minimum sum of \$15,000 for that year, with an annual increase of \$1,000 for ten years up to \$25,000. The maximum is now reached and hereafter each of the states and territories will receive annually this sum for its agricultural colleges. This money is the proceeds of the sale of public lands.

Account Fifth International Convention of Epworth League, San Francisco July 18 21.

San Francisco is an ideal summer resort—weather always cool.

Trip thither in summer, across high tablelands of New Mexico and Arizona is pleasant—air bracing, no oppressive heat or dust.

Best way to go is via Santa Fe Route, only line under one management, Chicago to San Francisco; daily trains to California, Fred Harvey meal service, personally-conducted excursions.

On the way visit Indian pueblos, and petrified forest, also Grand Canon of Arizona—world's greatest scenic spectacle, now easily accessible.

See southern California—its noted resort hotels, idyllic valley, majestic mountains, smooth beaches and lovely islands, its old missions, its semi-tropic fruits and flowers, its great oil wells. This important section reached via Santa Fe Route cheaper than most other lines and with greater comfort.

Extremely low round-trip rates; liberal stop-over privileges; choice of routes returning; open to everybody. All ticket agents sell via Santa Fe Route. Descriptive literature on request.

Sweet music, a high-class, popular song, is furnished free every Sunday in The Republic.

### Through to Harrison.

On April 15th, the St. Louis and North Arkansas Railroad was formally opened to Harrison, Arkansas, establishing (in connection with the Frisco line from Seligman) direct railway communication with some of the richest lead and zinc fields yet discovered.

The territory traversed by the new line presents perhaps the most remarkable panorama of rugged mountain ranges and fertile valleys to be found on the American continent. A trip to Harrison is well worth the time so spent, either from a commercial or a sight-seeing standpoint.

### M. K. & T. REDUCED RATES IN INDIAN TERRITORY.

Ever since the construction of the M. K. & T. Ry. through the Indian Territory its local passenger rate between stations in the Indian Territory has been on the basis of five cents a mile. The customary rate of passenger fares on railroads, except in sparsely settled country, is three cents a mile. The population of the Indian Territory during the past few years has grown rapidly; there has been a large increase in passenger traffic on this account, and the M. K. & T. officials recognizing the waste of the people and the justice of so doing, have voluntarily arranged to reduce the local passenger rate to a basis of three cents a mile. This reduction will take place on or about November first. There will be great rejoicing among the residents along the line of the M. K. & T.
